

# 2022 AUTUMN PRODUCTION SALE

11AM WED 13TH APRIL

SCONE SALEYARDS INTERFACED WITH  
ELITE LIVESTOCK AUCTIONS

# HOW TO REGISTER with ELITE LIVESTOCK AUCTIONS

Simply go to  
**[www.elitelivestockauctions.com.au](http://www.elitelivestockauctions.com.au)**  
using your desktop, laptop, iPad, iPhone  
or android device.

Click on the **"Sign Up"** page / link

Create a bidding profile using the bidder  
registration page.  
*(You can either register as a livestock  
agent, company or private buyer)*

Agree to the Elite Livestock Auctions  
Terms & Conditions and the Selling  
Agents Sale Terms & Conditions as  
printed in the official Sale Catalogue

Click **"Register"**

You will then be notified by email that an  
account has been created.

Once an account has been created you  
are all **"Set to Bid"**

Each Auction can then be viewed by  
clicking **"Live Auction"** logo on the Elite  
Livestock Auctions website.

Once you receive email notification that  
your account has been created please  
go to the sale you wish to bid at and  
click **"Request to Bid"**

The sale will then approve your appli-  
cation to bid and on the sale catalogue  
you will see **"✓ Bid Request Approved"**

On Sale day simply login, click "Enter  
Auction" on the catalogue page and you  
can start bidding.  
*(There is no need for software download)*

At the completion of the auction, invoic-  
ing will be carried out as per your regis-  
tration details by the Selling Agents.

Having trouble registering and logging in?

# DELTA WAGYU GENETICS 2022

## WELCOME TO Mirannie, Home of Delta Wagyu

Mirannie in the Hunter Valley has been in the Binnie family for 124 years. Purchased in 1898 by family member Richard Binnie, the family bred draft horses used to haul wagons for bakeries and breweries, and eventually cattle, establishing an award-winning herd of Hereford cattle on the then 20,000-acre station.

The property was split in 1935 into two 8,000-acre farms, with one of those farms eventually being passed to my dad, Nigel, and his brother, Richard. The brothers bought another property which was also split.

I worked the farm with my dad Nigel throughout my youth, eventually attending boarding school and university in Sydney and coming back to work the property every holiday. Liz is a city girl from the northern suburbs of Sydney who had a good job in marketing, and I had a commerce degree, focusing on finance and accounting; but when dad fell ill, we walked away from our careers with no hesitation, straight into managing Mirannie.

The idyllic property has a life of its own, with a rich family history and well-kept paddocks and dwellings. You can see nothing, but love went into it. Every fence, every brick, every part of this property is 100 per cent loved. There is an emotional connection to the land, we love it, it loves us.

## Delta Wagyu Genetics

We came to Mirannie around 2003 and I worked with dad (who recovered with a pacemaker installed). We did it dad's way for five years which (in his words) was the highlight of his career to work with me. It was a highlight for me, old school. It was about respecting his knowledge and all the years he put in.

One thing that did change was the cattle. It was run as a Hereford stud, and the breed had truly gone out of fashion. In 2011 when then prime minister Julia Gillard caused huge upheaval in the cattle world by banning live exports, suddenly cattle from the Northern Territory were being sent to feedlots in southern states, meaning no space for local cattle.

With two years of production coming out of the north, and a drought here, we couldn't sell our cattle. It was at this point we realised we had to move away from Herefords. Once we started eating wagyu, we realised there is no way this product won't continue to gain market share because the product is so far superior to anything else.

We made it a giant leap, committing big-time to the fast-rising breed. We went for absolutely the best of the best genetics, then again with the next generation. Using IVF, we super ovulated the wagyu full bloods, synchronised the cycling of the white-faced Herefords, implanted the ovulated embryos out of the full bloods into the Herefords and so we leapfrogged our genetic gains, right to the top of the tree overnight without having to buy them.

In the last five years, we have invested heavily in the wagyu beef industry, as breeders with 1,000 head; and for beef turning 600 to 700 carcasses a year. Creating the company Delta Wagyu Genetics, we established a record of success with top breeding bulls and exporting straws to all corners of the globe. Today our genetics can be found from inner Mongolia to Ireland, South Africa, and Brazil.

Raising wagyu cattle for beef is a different exercise. While using the genetics of our own breeding stock created a quality product, the business is still tied to vagaries of the cattle industry, such as the price of feed. Our wagyu beef cattle are on feed for 400 days to obtain the famous marbling that makes them so nutritious and valuable - there are no shortcuts.

The science and numbers of wagyu fit my brain for math perfectly. It goes back to carcasses, and marbling. It is all data driven, it's all about how much money is that set of genetics delivering to the farmer in the cool room. How much yield. What is the size of the cube roll? It is all directly linked to profitability.

With three global Wagyu Beef Brands, our Wagyu beef is enjoyed in the world's best restaurants from Shanghai, to Singapore, Sydney, London, Paris, and New York.

Losing the bulk of our Chinese wagyu export market during COVID19 hasn't caused any more sleepless nights than usual. For us, China has had major market access challenges, however where there is pain, where there is trouble, there's always opportunities.

In 2020 we refined our plan, establishing Binnie Beef Warehouse in Newcastle. A concept store, the warehouse contains a chef's kitchen and large tasting room, offering cooking classes that end in an excellent feed. The new plan allows us to educate consumers on how to prepare and cook wagyu, and provide a tasting experience, which can end with purchase of product right there.

We have a huge amount of well-founded confidence in the wagyu industry. Beyond the fundamentals of cattle production such as low birth weight, hardiness, high fertility, growth and \$/kg, which are second to none, the product simply tastes better, so will continue to gain market share into the foreseeable future.

Thank you for your time and we hope you also achieve great things on your wagyu journey.

*Steve & Liz Binnie*

# DELTA WAGYU GENETIC PRINCIPLES

## WHY CHOOSE US?

Delta Wagyu are leaders of wagyu genetics, excelling in cattle for full supply chain, commercial profitability, tailoring cattle production to suite both domestic and export markets. It is our philosophy to use the best genetics, keeping the genetic progress simple & cost-effective.

With over 100 years of experience in developing genetic improvements, the Delta Wagyu team have exhibited scores of prize-winning bulls, sold cattle internationally and judged shows across the country. As such Delta Wagyu are ideally positioned to develop the highest profitability animals for markets and geography worldwide.

## WE HAVE ONE GOAL

To Provide The Highest Quality Beef Genetics To Producers Worldwide.

Our global approach to performance data keeps our clients making genetic progress and competitive with the best herds. Delta Wagyu's sister companies in Africa, Europe, and America allows our clients to have access to the best genetics all over the world. This is one of the strategies that keep Delta Wagyu clients making faster genetic gain than other commercial wagyu herds.

# BREEDING PROGRAM

Delta Wagyu follows a strict breeding program using the Rotational Breeding Model™ released by Mr. Shogo Takeda in 2006 (often referred to as Takeda's Rotational Breeding), along with EBV's. The idea of classifying cattle and breeding in a rotation to support balance and diversity is utilised in many breeds of cattle.

The principals of this system are that cattle are classified into four groups (A, B, C, D) based on their characteristics. Group A consists of animals with strong frame, growth, and calf raising. Group B are animals with extreme marbling and carcass traits that are small framed. Group C are animals with large frame, milk, and maternal traits. Group D consists of animals with strong marbling and carcass traits that are generally medium framed. Then cattle are bred in a circle with group A mated to group B, group B mated to C, group C mated to D, and completing the circle group D is mated to A.

This, ideally, achieves a similar result to the utilisation of EBVs, by using corrective mating of cattle to create balance. Unlike EBV's however, this system lacks any way of quantifying genetic gains achieved.

Utilising both Takeda's Rotational Breeding along with EBV's provides quantifiable hybrid vigour in the offspring, resulting in balanced females and fat cattle with the consistent carcasses our Binnie Beef brand is famous for. Compliance with the rotation also reduces the dangers of inbreeding.

For your convenience we have noted the breeding classification for each bull listed in this sale.

## Binnie Beef Grain Fed

Binnie Beef grain fed product is renowned for a consistently well marbled, rich, buttery, melt in your mouth eating experience.

These full-blood wagyu cattle are born on Mirannie Station, bred from the world's finest wagyu genetics, then finished in a 400+ day grain feeding program.

## Binnie Beef Free Range

Binnie Beef free range is an ecofriendly product, renowned for a more nutty, robust, textured eating experience.

While this full-blood free range product exhibits the rich flavours synonymous with all wagyu, these cattle are born on Mirannie Station, bred from the world's finest wagyu genetics, and spend their entire life in the luxury of a peaceful paddock landscape, eating from native pastures with a secret supplementary top up.

# Binnie Beef and Nagisa Japanese Restaurant

Stands at the intersection of cultures, histories, and sensual experiences. You can experience the delightful fusion of traditional Japanese food with contemporary attitude in a beautiful environment by the water in Honeysuckle Precinct of Newcastle.

A strong focus on local and seasonal fresh produce in each menu, we value our relationship with local producers and suppliers, without these relationships Nagisa would not exist.

Owner Tetsu & Head Chef Chris grew up in Gunnedah on farms themselves on Cattle and wheat, they understand the farming life.

Nagisa has the utmost respect and confidence in Steve, Liz and the Binnie Beef Team, allowing us to work seasonally with the high-quality Wagyu produce a chef could dream of. Head Chef Chris has mastered 2 signature dishes:

Binnie Beef MBS9+ Wagyu striploin 150g roast MBS9+ wagyu, wasabi butter poached asparagus, yuzu mustard, shiraz salt must have when visiting Nagisa

MBS9+ Binni Beef - Wagyu Striploin /citrus kosho/pickled onion and radish/sake salt

## Wagyu Special

@binniebeefwarehouse roast Wagyu striploin/whiskey pepper ponzu/sunomono mushrooms/daikon pave/smoked oil/sweet potato leaves.

**BOOKINGS ESSENTIAL AT [WWW.NAGISA.COM.AU](http://WWW.NAGISA.COM.AU)**

Nagisa is open Monday to Sunday Lunch from 11:30am to 2:30pm,  
& Monday to Saturday night 5pm to 9:30pm

@nagisa\_japanese

# Exciting News!!

**\$1,000  
VOUCHER**

**VOLUME BUYER  
INCENTIVE**

## ÂPÉ YAKITORI COCKTAIL BAR

*Nagisa is Opening a High-quality  
Yakitori Bar in Newcastle in May  
(next to Nagisa by the water)*

Binnie Beef will play a vital role allowing customers to choose multiple cuts of their prized Wagyu.

ÂPÉ – Meaning Fire in indigenous Japanese will focus gathering their produce from local farms and suppliers, working closely to bring the best of each season.

Yakitori is the ancient art of cooking quality produce over charcoal, bringing the best potential of what the ingredient could offer.

**Head Chef Nicolas** will be breaking down ingredients to their simplest form allowing our customers to experience different cuts and flavours of meat, seafood, and vegetables

@APE\_YAKITORIBAR

# BUYER INFORMATION

## REFRESHMENTS

A complimentary Binnie Beef Wagyu lunch and refreshments will be provided.

## INSPECTION DETAILS

You are invited to inspect all sale cattle at your leisure from 10:00am on day of sale.

## BUYERS INCENTIVE

Volume buyer will receive a \$1,000 voucher redeemable at either Nagisa Japanese Restaurant, or ÂPÉ Yakitori Cocktail Bar in Newcastle, where they can enjoy Binnie Beef served at its best.

## INTERNATIONAL BUYER MANAGEMENT COMMITMENT

All females come with a one year international buyer management commitment. At the request of the successful purchaser, Delta Wagyu will take care of the female, organise administration and logistics with export centres and pass all expenses with local suppliers on at cost.

## AGENTS REBATE

The vendors agree to a 1.5% rebate to outside agents introducing approved buyers in writing 24 hours prior to the sale, or they accompany them on sale day and settle on their behalf within 7 days. These conditions will be strictly enforced.

## TRANSPORT AND DELIVERY

We take personal interest and will endeavour to help co-ordinate efficient delivery of the animals where required. Trucks are welcome on sale day however no loading will occur until sale has been completed.

From the fall of the hammer, it's the buyers responsibility to organise the welfare of the animal including transport.

ALL DELIVERY INSTRUCTIONS MUST BE IN WRITING. NO VERBAL INSTRUCTIONS.

## SUPPLEMENTARY SHEETS

Supplementary Sheets will be available on sale day and in the week leading up to the Sale.

## REGISTRATION

Transfer of ownership will be registered with Australian Wagyu Association by the Vendor upon request. Full instructions are to be supplied to the selling agents.

## ANIMAL HEALTH

All females have been vaccinated with 7 in 1 and Pestiguard.

All bulls have been vaccinated with 7 in 1, Pestiguard and Vibrovax.

All cattle have been drenched prior to sale.

Animal Health Declarations will be available, as well as preg-test and bull testing certification.

## QUALITY ASSURANCE

Females have been pregnancy tested by Brendan Coonan from Northern Artificial Breeders. Females will be pregnancy tested again the day prior to sale, with results circulated via the supplementary sheet.

All bulls have been semen tested by Brendan Coonan from Northern Artificial Breeders.

Delta Wagyu has taken great care to ensure the information provided in this catalogue is accurate. However, we take no responsibility for the accuracy and/or interpretation of the information or any mistakes and negate any actions taken by any party resulting from such. We retain the right to use photographs and/or information we hold on a particular animal both now and into the future. Unauthorised copying is prohibited.

## HEALTH AND SAFETY

Visitors enter the saleyards and cattle area at their own risk.

## ACCOMMODATION

Scone has numerous accommodation options. The selling agent will be happy to assist with accommodation and transport requirements for visitors if required.

## AIRPORT

Scone has an airport with private charter services. Nearby Tamworth and Newcastle airports are serviced by commercial flights with hire car services. Please allow 2 hours to travel to Scone from these centres.

SUMO MICHIFUKU F126 is 62.5% TAJIMA and 37.5% SHIMANE and is considered to be one of Sumo Wagyu's best sires. Sumo Wagyu's most consistent carcass performer producing average Marble Score of 8.6 and average Carcass Weight of 447kg over 19 analysed carcasses. A beautifully balanced sire across both maternal and carcass traits with high predictability to increase growth and marbling quality in resulting progeny. The Tajima content of F126 is heavily influenced by Monjiro, considered by Japanese breeders to be one of their most outstanding sires. GPPFD0001 is one of our biggest framed cows in our herd. Her immense size and breadth makes her an ideal female to breed on from with a high Marbling Sire, knowing that the calves will grow and prosper. This F1 recip cow has been selected for her milk and structure. Just as she has been for her last calf, she will be an excellent mother to this standout calf inside her.

**NOTE:** This cows has not been joined to a bull since embryo implant, with every effort made to maintain this status. While it is assumed she is PTIC as a result of the embryo implant, Delta Wagyu make no guarantee as to the paternity of the in utero calf.

Shikikan N211 has rare and highly sought after genetics. The Shikikan line is represented in the female side of many of the top bulls in the breed. Whilst the Shikikan line is known for smaller carcasses and growth traits, Shikikan N211 outperforms on all growth characteristics and carcass weights, without losing the outstanding marbling characteristics this line is known for.

Sumo Big All is a very large, high yielding performance sire. The Big Al line is known to be the highest marbling line in the Akaushi's, and when combined with this phenotype, is a mix we are confident to breed on with.

Delta Revolution combines the high EBV's coming in from SMOFN195 and SMOFN154, with a magnificent structure, frame and easy doing phenotype. He has a smooth soft coat, is sound in the feet, and will be one to watch in the future as carcasses come in to back up high expectations.

Kanadagene E36 represents a very rare and highly sought after genetic mix. The Kanadagene females are known to throw very high marbling calves. They are consistently outperforming in the most demanding conditions in Australia. With such a short gestation period and low birth rates, Kanadagene E36 is the ideal bull to use in a Dairy AI program or as a cross with first joining heifers of any breed.

## NOTES

# LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

## CHAPTER ONE - PRELIMINARY

1. (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction.
- (b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.
- (c) A buyer is bound by these terms and conditions by bidding at auction.
2. (a) In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors, agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.
- (b) When used in these terms the expressions "companion animals" means all animals originating from a property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions.
3. The following applies in interpreting these terms and conditions:
  - (a) The following words have the following meanings:
    - Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent;
    - Livestock means animals auctioned pursuant to these terms and conditions; and
    - Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions
      - (i) plus any fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and
      - (ii) plus any GST added in accordance with clause 12.
  - (b) These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

## CHAPTER TWO - STANDARD TERMS OF SALE

4. Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.
5. The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.
6. A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again.
7. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.
8. In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.
9. The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interests of the vendor and need not give reasons for doing so.
10. A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.
11. The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:
  - (a) the purchaser's name; or
  - (b) the bid card number which identifies the purchaser; or
  - (c) the name of the person on whose behalf the successful bid was made; and
  - (d) the Property Identification Code (known as the "PIC") of destination.
12. The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.
13. The vendor warrants that the:
  - (a) vendor has (or will have) the right to sell the livestock at the time of delivery; and
  - (b) buyer will obtain title on completion of the buyer's obligation under these terms and conditions.
14. If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock knocked down to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.
15. The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in a written agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.
16. No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negated as far as possible.
17. (a) Cattle sold on a liveweight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.
- (b) Cattle sold on a liveweight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.
- (c) All livestock other than cattle sold on a liveweight basis are at the risk and expense of the buyer upon the fall of the hammer.
18. (a) Subject to this clause the sale is complete on the fall of the hammer.
- (b) The time for rejection is the time commencing at the fall of the hammer and ending at the first of:
  - (i) delivery is taken by a representative of the buyer;
  - (ii) departure of the animal from the purchaser's delivery pen; or
  - (iii) one hour after the last animal is:
    - a. in the case of pre-sale weighing, sold; or
    - b. in the case of post-sale weighing, weighed.
- (c) During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.
- (d) If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reason for rejection to that buyer.
- (e) This sub-clause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, through delivery to and from the scales, to the buyer's delivery pen and on to the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This sub-clause does not apply if the agent makes an announcement to that effect prior to sale.
19. (a) Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.
- (b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time.
- (c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be

- supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner the female was pregnant on that date.
- (d) For cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard account to the purchaser's account on the NLIS database no later than midnight on the day of the sale.
  - (e) Where livestock have a food safety or market eligibility status derived from the NVND and/or the NLIS/ERP database, the agent will inform the buyers by presale catalogue in conjunction with vendor branding and/or announce the status prior to the offering of those lots.
20. If delivery is made to, or possession obtained by, the buyer or its representative before full payment of the Price, then until full payment is received, the buyer:
  - (a) does not acquire title to the livestock;
  - (b) holds the livestock as bailee only for the vendor;
  - (c) must act in a fiduciary capacity in its relationship with the vendor;
  - (d) must store the stock separately or so that they are readily distinguishable from other livestock owned by the buyer;
  - (e) is responsible for the safety and well being of the livestock;
  - (f) may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and
  - (g) must keep and account for the proceeds of any subsequent sale separately from its other money and hold those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.
21. The buyer agrees that:
  - (a) clause 20 creates a registrable security interest under the personal Property Securities Act 2009 (PPSA);
  - (b) the buyer acknowledges the rights of the vendor (and/or the agent is clause 23 applies) to register a financing statement under the PPSA with respect to the security interest created by this clause;
  - (c) the livestock are collateral for the purpose of the PPSA;
  - (d) to the extent permitted, the buyer waives any right the buyer has under the PPSA to receive notices;
  - (e) the date upon which the security interest created by this clause comes into force is the first date on which livestock are delivered pursuant to these terms and conditions; and
  - (f) if payment is not made in accordance with clause 15, but delivery is made to, or possession obtained by, the buyer or its representative, interest may be charged at the rate usually charged by the agent for overdue accounts on any amounts which remain owing at any time.
22. The buyer may not make any claim against the vendor for actions by the vendor or its agent under clauses 20 or 21 and indemnifies the vendor and its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor, the agent or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.
- 23.1. Clause 23 applies whenever the agent pays the vendor before being paid by the buyer, which the agent is not bound to do. The agent is then the *de credere* agent of the vendor at law.
- 23.2. The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.
- 23.3. When this clause applies, in addition to any rights of the agent that arise by operation of the law, the parties agree that, subject to clause 23.6 the agent is subrogated to all rights of the vendor under these terms and conditions against the buyer.
- 23.4. Title to the livestock does not pass to the agent or a nominee of the agent unless the agent, by written notice to the vendor, notifies the vendor that it is to be transferred to the agent or a nominee of the agent.
- 23.5. The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, or the Price of such livestock, owing by the buyer under these terms and conditions:
  - (a) when this clause does not apply, as agent of the vendor (including by reselling the livestock); and
  - (b) when this clause applies, on the agent's own behalf exercising the rights of the vendor by subrogation or assignment under these terms and conditions (whether in the vendor's name or not) and, where title to the livestock has not passed to the agent, by selling the livestock as agent of the vendor without the agent having to account to the vendor for the proceeds of sale.
- 23.6. The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under clause 23.3).
- 23.7. The vendor hereby irrevocably appoints the agent as the vendor's attorney to:
  - (a) do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded, or intended to be afforded, to the agent under these terms and conditions; and
  - (b) appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.
- 23.8. These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor or otherwise.
- 23.9. The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:
  - (a) by this clause 23, other than as it expressly provides; or
  - (b) by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.
- 23.10. The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including any assignor of the vendor's or the buyer's interests under these terms and conditions.
24. (a) The agent agrees that he is liable to pay to the vendor the Price, less such commission as is agreed between the vendor and the agent, and in the absence of any agreement such amount as is reasonable, and less the fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.
- (b) In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent.
- (c) Regardless of whether or not a sale has occurred the agent may, but is not under obligation so to do, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.
25. (a) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.
- (b) The vendor, the agent and the buyer agree to comply with their several duties under the Australian Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and treat livestock in accordance with any other or additional requirements of animal welfare legislation specific to the State or States in which livestock are consigned, managed, received, transported and treated in the course of the auction process.

## CHAPTER THREE -

### VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

26. This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are

- slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
27. The warranty of a vendor is that livestock and their companion animals offered for sale at auction:
    - (a) pass DAFF and other regulatory authority requirements and inspections at the time of slaughter; (DAFF refers to Federal Government Department of Agriculture, Fisheries and Forestry);
    - (b) are of merchantable quality;
    - (c) carry an NLIS device in accordance with State law;
    - (d) in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in the National Vendor Declaration, the livestock will have those characteristics or will be fit for the particular purpose or market; and
    - (e) all information in any National Vendor Declaration provided by the vendor is true, complete and correct in all material respects.
  28. In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.
  29. However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.
  30. In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.
  31. Where a sentinel animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms, then:
    - (a) the buyer will be entitled to delay payment for the price of all livestock in that lot; or
    - (b) the vendor has the option, at the vendor's cost, of collecting the companion animals and returning them to the vendor's property; or of having the livestock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.
  32. The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:
    - (a) any error, by the auctioneer, of transcription of information from the National Vendor Declaration completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
    - (b) any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and
    - (c) any failure by the auctioneer to disclose prior to bidding, and in the presale catalogue, that the vendor has failed to provide a National Vendor Declaration that is complete in all material aspects.
- ## CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE
33. This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
  34. Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by the relevant government department. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the certificate issued by the relevant government department, existed prior to the fall of the hammer.
  35. A buyer with the benefit of owners risk protection is not liable to pay the Price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.
  36. Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:
    - (a) a certificate is issued by the relevant government department which states the relevant NLIS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;
    - (b) the certificate is received by the selling agent either in its original form or by fax by 5:00pm on the 7th day after the fall of the hammer; and
    - (c) if the condemnation is due to chemical residue the certificate follows testing in a laboratory approved by the relevant government department which establishes maximum residue limits in excess of the Australian limit.
  37. Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of the following:
    - (a) bruising,
    - (b) fever,
    - (c) partial condemnation, or
    - (d) emaciation.
- ## CHAPTER FIVE - NOTICES REQUIRED BY STATE LEGISLATION
- ### NSW Legislation
- Property, Stock and Business Agents Act 2002 Warnings
- Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:
- (i) to abstain from bidding; or
  - (ii) to bid to a limited extent only; or
  - (iii) to do any other act that might prevent free and open competition.
- Severe penalties may be imposed on persons convicted of collusive practices.
- The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale.
- ### Tasmanian Legislation
- The auctioneer must not appear to acknowledge a dummy bid. A buyer must not give, agree to give or offer a gift or other consideration to a person for abstaining from bidding and a person must not accept any gift or consideration for abstaining from bidding.
- A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or do any other thing which may prevent free and open competition.
- ### Western Australian Legislation - Auction Sales Act 1973 s31 NOTICE
- It is an offence to:
- (i) induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to toss or draw lots to establish who is to become the owner;
  - (ii) abstain or agree to abstain from bidding as a result of such a promise;
  - (iii) knowingly enter or permit or cause to be entered in the auctioneer's record any name other than that of the actual successful bidder;
  - (iv) enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or
  - (v) in the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.
- The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
